

CORPORATE WEBSITE DEVELOPMENT AND HOSTING QUOTATION

Dear Sirs,

Through this document, I am pleased to present this commercial proposal for the development of a professional multipage website designed to enhance your company's digital presence and facilitate effective communication with your clients and collaborators.

I have experience in developing Full Stack applications and websites, using modern technologies and complying with security and quality standards, guaranteeing stable and scalable solutions.

Details of the Included Services

Corporate Website Development

The project includes:

- Design and development of a multipage website, responsive to mobile devices.
- Registration and configuration of a .com domain (e.g., www.yourcompany.com).
- SSL security certificate (https://).
- Integration of value-added functionalities, such as:
 - Image gallery.
 - Contact chat via WhatsApp Business.
 - Quick return button (scroll-top).
 - Contact form.
- Implementation with modern technologies:
 - HTML, CSS, JavaScript, React.js, Node.js, ASP.NET Core, among others according to requirements.
- Configuration of corporate email accounts.
- Structure of 5 main sections (customizable according to the company's needs), for example:
 - Home page.
 - Company or services presentation page.
 - Additional informational page.
 - Private area or user section.
 - Contact form.

Total cost for website development:

₡550,000 (five hundred fifty thousand colones) / USD 1,100

Hospedaje Web Corporativo
